Gentlemen:

Our club is insured with your firm under our Policy
No. GLAC 4000003081.

To operate our amateur radio license training classes
we have for some years rented room from the Wauwatosa
school system.

The school management has just established a minimum
level of insurance for participating groups such as
ours. These limits are listed on the attached sheet.

Does our policy meet these requirements? If not can
we modify it to meet these requirements?

Yours very truly.
